Description

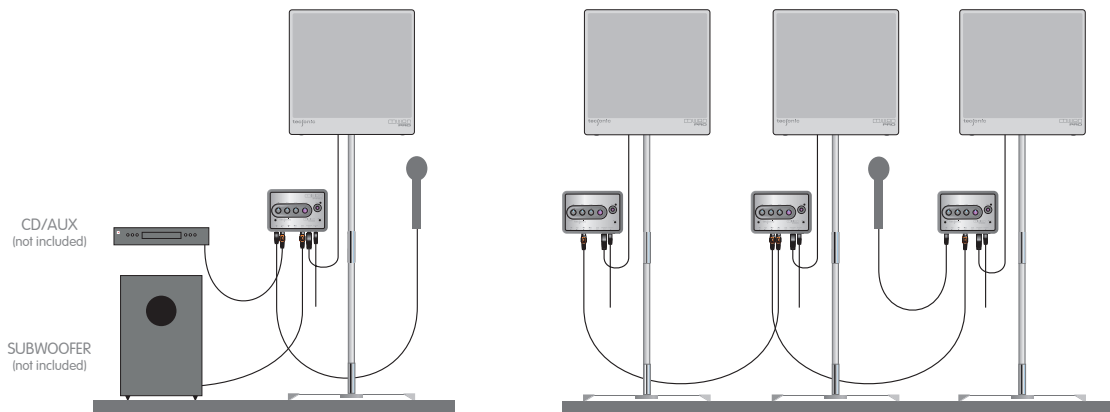

The Mission TecSonic is a light, compact and fully portable speaker system incorporating patented NXT® SurfaceSound® technology, designed to provide high vocal clarity together with excellent dispersion characteristics. The option to link multiple TecSonic systems for large venue coverage makes the Mission TecSonic speaker system an ideal solution for meetings and presentations where voice reinforcement may be required.

Features

- Powered mixer / amplifier
- Microphone and line inputs with independent gain controls
- Master volume control
- Link In / Link Out RCA Phono sockets for system 'Daisy Chaining'
- RCA Phono Subwoofer Output socket (for optional Subwoofer)
- Fully collapsible floor and desk stands (included)
- Microphone (included)
- Tough outer carry case

Set-up Options

Panel Specifications

Frequency Response $\pm 3\text{dB}$:	135 Hz - 20 kHz
Sensitivity SPL/m/2.83V:	90 dB
Nominal Impedance:	4 Ohms
Dispersion:	180° up to 10 kHz

Amp Specifications

Power Output:	25 W into 4 Ohms 1% THD
Frequency Response $\pm 3\text{dB}$:	100 Hz - 20 kHz
Power Consumption:	40 VA
Thermal and short circuit protected	

Other Specifications

System Weight:	7.5 kg (16.5 lbs)
Outer Dimensions (H x W x D):	135 x 500 x 450 mm

Optional Accessories

Wireless Microphone
