powerful

flexible

Compact

- Ultra compact enclosure with big sound
24.5 x 15.5 x 24.25 inches
(622 x 394 x 616 mm)
- 6th Order Bandpass design ensures maximum output from a very small package

Portable

- Four low-noise, heavy-duty casters
- Molded side handles for ergonomic lifting
- 15 mm Birch plywood with textured paint
- **Optional heavy-duty Cordura cover with cable pocket (KS112 CVR)**

Powerful

- 2000 W Peak Class D power module
- 12-inch long excursion driver in 6th order band-pass enclosure
- Built-in powerful DSP (digital signal processing) for adjustable crossover and delay with optional Lock-Out Cover (KS LOC)
- TFR (Turbulent Flow Reduction™) port design provides optimal resonant tuning and high velocity air flow

Flexible

Can be deployed vertically with top-mounted M20 threaded speaker pole socket

Can be deployed horizontally (stackable) with side-mounted M20 threaded speaker pole socket
